

Connecting Teams and Clients Together

Create a more productive
hybrid workplace with
BenQ Corporate Solutions

BenQ

Get More Done, from Anywhere

Keep meetings productive with easy connectivity, whenever and wherever business happens

Get Precious Time Back from Every Meeting

On average, 15 minutes is wasted per meeting setting up conferencing and screen sharing. BenQ digital workplace and meeting room solutions are designed for hybrid teams to get more done, faster — transforming businesses for growth and efficiency.

Meet Smarter with BenQ

For three decades, BenQ has been helping businesses with digital transformation and the latest innovations in displays. Prepare for the digital future with high-tech and stylish display solutions that help boost productivity and declutter workspaces. BenQ's interactive displays and smart solutions are built with hardware and software features that help businesses work smarter, better, and more efficiently.

Global Quality Standards

BenQ display solutions are verified through globally recognised quality standards. Vivid displays bring presentations to life with true colours and stunning detail.

Join Forces with Industry Leaders

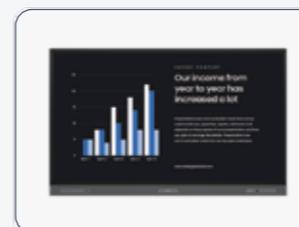

Microsoft, Amazon, VMware are just a few of BenQ's strategic partners, helping to deliver exceptional performance and seamless compatibility.

Comprehensive Solutions

BenQ's full range of professional display solutions help to inspire efficient collaboration and digital transformation in today's modern workplace.

Productivity Solutions

BenQ's professional display solutions make connecting with team members simple and seamless, creating digital workspaces with smart hardware solutions.

01 Interactive Displays

Hold productive meetings with touchscreen displays created for both face-to-face and hybrid setups, connecting teams and clients anytime, anywhere.

02 Business Projectors

Avoid complicated set-up with BenQ's smart business projectors, designed to simplify and amplify meetings with simple connectivity and bright, true-to-life colour displays.

03 Conference Cameras

Add-ons like conference cameras with professional video quality and broad compatibility enhance connectivity and idea sharing to get the most out of BenQ displays.

04 Wireless Presentation Systems

Start meetings and present your ideas with a click of a button. Easily connect to your meeting room tech, no complicated software necessary.

Level Up Your Workplace

BenQ's smart solutions give teams a productivity advantage

Compact

The Smart Projector and BenQ Board Pro feature slim, compact designs that allow instant wireless connectivity and the latest BenQ upgrades.

Secure

High-level hardware and software encryption helps ensure data security for peace of mind in an increasingly digital landscape.

Healthier

For years, BenQ has developed advanced eye care, air quality, and antibacterial features as a commitment toward bringing healthier digital workspaces.

BenQ's Space-saving Solutions Reduce Clutter

Auditorium or Board Room

Lead large-scale trainings and seminars effectively with vivid, professional displays and simple set-up.

- Suggested products:
- 4K High Brightness Laser Projector
 - Wireless Presentation System

Office Area

Keep productivity up and put safety first with eye-safe monitors for a comfortable working environment over longer sessions.

- Suggested products:
- Eye-care Monitor

Conference Room

Ideal for formal discussions, BenQ conference rooms bring everyone into the conversation.

- Suggested products:

 - Wireless Presentation System

BenQ Board

Made for Eye Comfort

Working with bright displays for long sessions can be harsh on the eyes. With proven and certified Eyesafe technology, BenQ's interactive display are designed to protect your eyes and offer an overall healthier workplace.

Video Conferencing

BenQ hardware is compatible with most meeting apps, ready for you to kick off virtual meetings, improve engagement and promote closer teamwork.

eyesafe
CERTIFIED

Eyesafe Certified Displays

The BenQ Board minimises harmful blue light, reducing eye strain while still delivering vivid, and accurate colours in 4K UHD.

Air Quality Sensor and Ionizer

The BenQ Board monitors several important parameters, alerting if the air quality drops so teams can make the necessary intervention.

SIAA

TÜV
CERTIFIED

Germ-resistant Surfaces

Screens, buttons, pens, and remotes are certified with a TÜV guaranteed germ-resistant coating and SIAA-certified as non-toxic to help reduce the spread of common germs in shared workspaces.

Made for Teamwork

The BenQ Board is designed to help teams get more done so business can grow. User-friendly apps let users join, discuss, and collaborate from anywhere. In-meeting casting management lets presenters cast up to 9 screens simultaneously to attendees' devices, with an approval system to manage who can cast and when.

Intuitive Writing

Take notes directly on the board with a realistic pen-like feel with up to 40 touch points and annotation capabilities, helping to capture the main points of the meeting.

Data Access

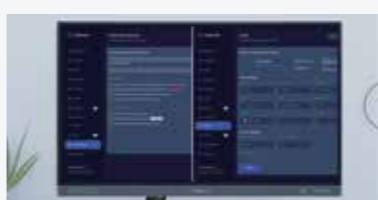

Get instant connectivity with BenQ NFC cards to securely link personal login and cloud access for greater control over connected devices.

Lead Collaboration

Manage screen casting with ease through a central approval system so everyone can have their say.

Multi-Windows

Avoid switching between multiple applications at the same time by working from a single split screen, side by side.

Screen Casting

Cast up to nine screens simultaneously from separate devices via a single Casting Manager who can control which team members can share to the screen, no software set-up necessary.

Smart Projector

SMART X Windows 11

The All-in-one Meeting Projector

BenQ's Smart Projector is the intelligent projector solution for hybrid meetings with fast setup and powerful collaboration capabilities. Save time and money with an all-in-one option that eliminates the need for clunky external devices.

First of Its Kind

The Smart Projector is the world's first Windows 11 projector, giving users the same control, security, and processing power as a laptop or computer.

User-friendly Accessibility

Shortcuts in a customisable interface allow users to launch meetings instantly, while video conferences are easy to join with built-in apps.

Hold Meetings in Any Space

Presentations that Come Alive

Enhance the detail of text and the accuracy of colours with Infographic Mode for immersive presentations that capture the audience's attention.

Wireless Casting

Cast presentations from up to four different devices at the same time on a four-way split screen.

Hold Instant Meetings

Compatibility with popular video conferencing apps and hassle-free 4-way split screen casting makes it easy to lead interactive meetings, no matter the location or setup.

Access Data

Access cloud files directly from the projector without the need for a PC or mobile device, helping provide workplace organisations with effortless connectivity.

Upgraded Info Security

Windows 11 OS supports regular security upgrades to help protect devices and data.

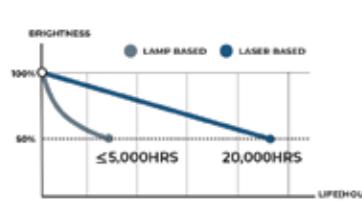

Business Projector

Durable with Vibrant Colours

BenQ Business Projectors are ideal in meeting rooms, conference rooms, large venues, and even to project simulations. Unlike traditional lamp projectors, BenQ's Business Projectors use LEDs and Digital Light Processing (DLP) technology for better image quality via a long lasting light source, saving on maintenance calls while delivering top-notch performance.

BenQ Business Projectors can be used in multiple modes, including:

-  Slide mode for sharing presentation decks
-  Spreadsheet mode for sharing large amounts of data on a spreadsheet
-  Simulation mode for immersive simulations
-  Golf mode for golf specific simulation

20,000 Hours of Projection

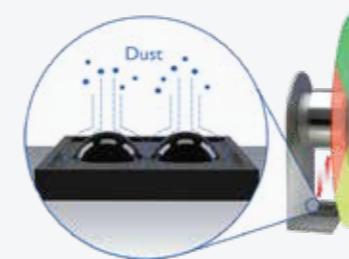

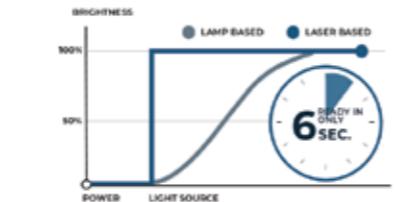

Providing 20,000 hours of 4K UHD projection at max capacity and full true colours with no need to change bulbs or components, while Eco-mode supports a lifespan of up to 60,000 hours.

DLP Technology for Life-like Colour

DLP chips can provide over 100,000 hours of bright, accurate colour images with no fading, lasting longer without need for replacement.

Instant On and Off

No warm up necessary. Start presenting with a press of the "On" button. With a fast boot up sequence, users save time spent waiting for traditional bulb projectors.

Dust-proof Design

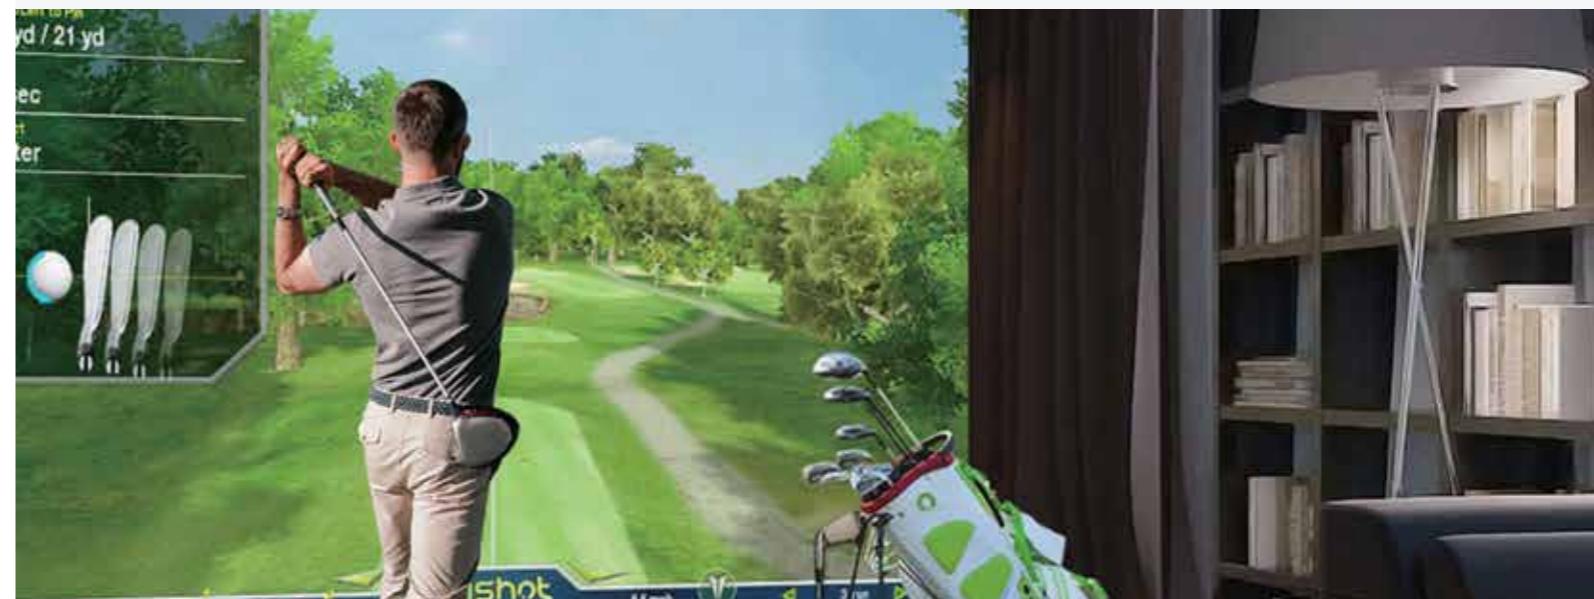

Certified with the internationally recognised IP5X standard, engines and laser modules are sealed to protect against dust.

Superior Image Quality

Featuring 90% Rec. 709 colour coverage for more precise image quality and colours that keep the audience immersed.

Laser-Powered Contrast

Direct control over light output delivers an impressive contrast ratio of 20,000:1, delivering truer blacks and colours for crisp detail.

Flexible Installation

Widescreen aspect ratio, corner fit, short throw capabilities, diverse zoom options, and, in some models, 3D keystone technology, offering high resolution without warping in any space, no matter the size.

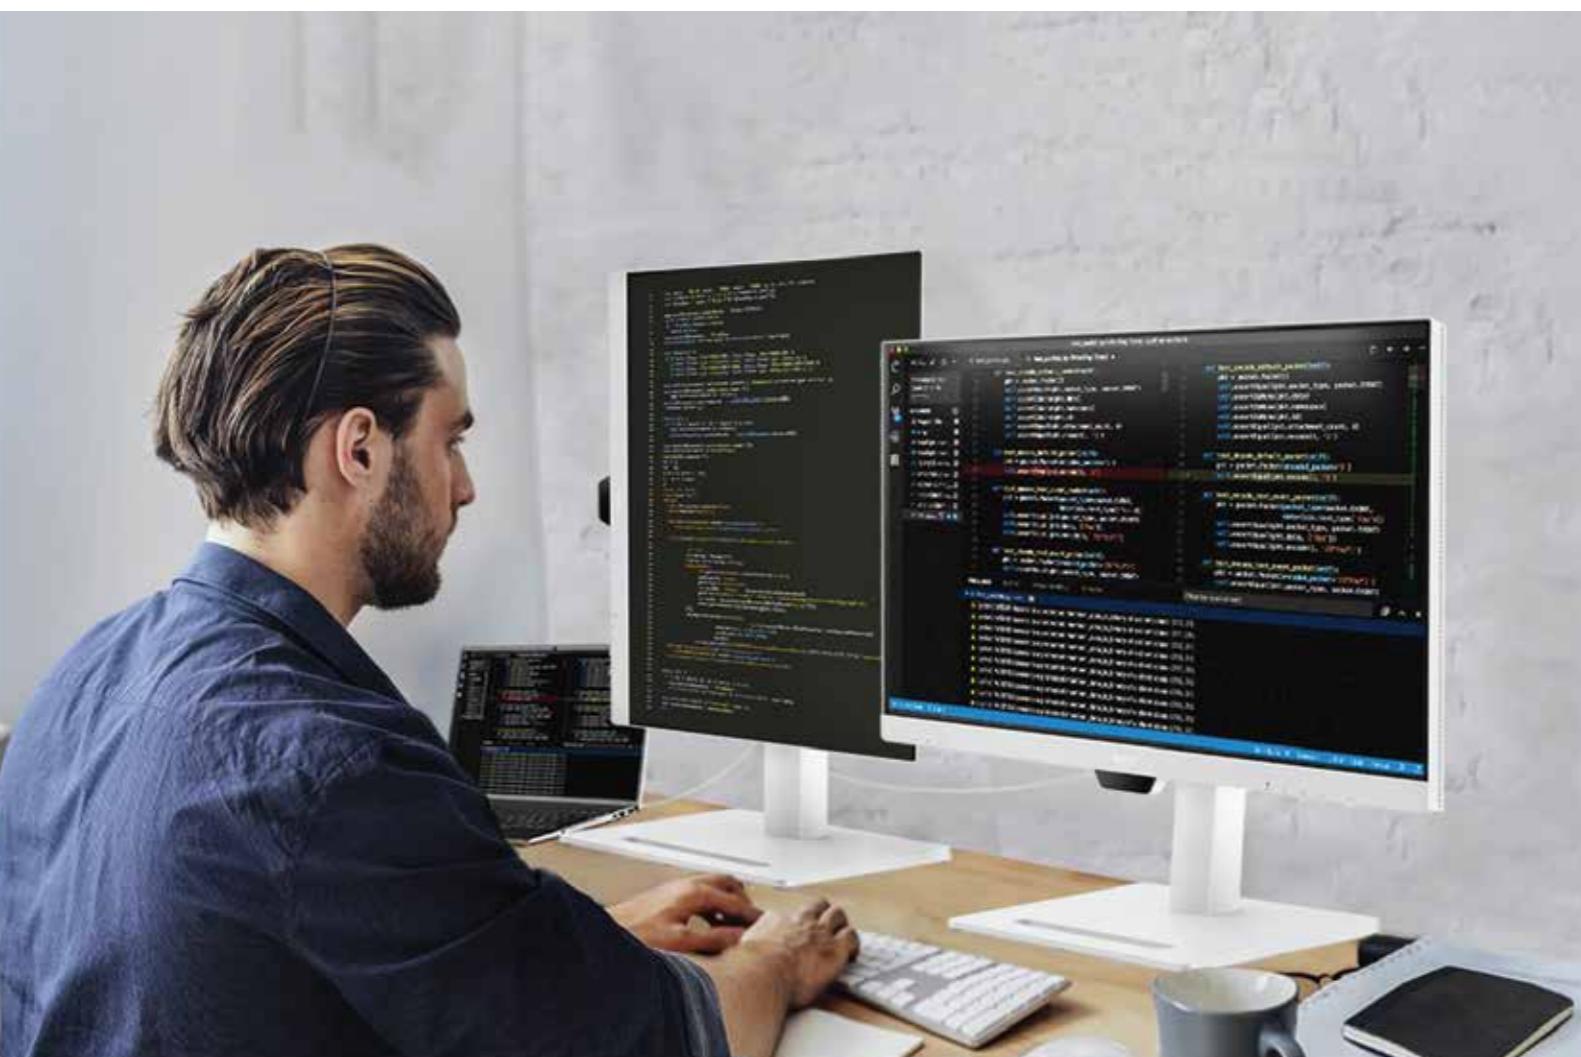

Immersive Golf Mode

In models equipped with Golf Mode, a large, proportional, and realistic image delivers a fully immersive experience, accurately representing the deep blues and lush greens of your favourite courses.

Vivid Simulation

The most advanced simulation capabilities in their class for true immersion, achieved with BenQ colour adjustment and superior DLP 4K resolution.

LCD Monitors

Designed to Protect Eye Health

The health of team members is top priority. BenQ's monitors are equipped with eye-care technologies that encourages productivity and creativity with accurate colours, gentle break reminders, and auto-brightness adjustment. Features that are designed to protect the user's eyes and prevent strain and discomfort.

Brightness Intelligence Technology

Ensure comfortable viewing without sacrificing image quality. Built-in ambient light sensors detect ambient light changes in the environment and auto-adjust screen brightness and colour temperature to match the monitor's surroundings.

USB-C Connectivity

USB-C connection's high-speed data transfer capabilities transmit uninterrupted audio and video signals.

Ergonomic Design

Personalise monitors with tilt, pivot, swivel, and adjustable height for flexible viewing and ultimate comfort in the workplace.

Coding Mode

Coders and developers can avoid eye strain by turning on coding mode. The monitor automatically adjusts the contrast of dark mode in the coding window to match its environment for comfortable coding.

Eye-CareU Software

Eye-CareU puts comfort first with features like screen time reminders and adaptive brightness for an eye-safe viewing experience.

Vibrant Images with AQCOLOUR

Created in partnership with colour professionals, International Colour Consortium (ICC) and the International Standard Organization (ISO), AQCOLOUR technology delivers real-life colour at the professional standards required by experienced artists and graphic designers.

Wireless Presentation System

Optimise Workspaces for Seamless Collaboration

BenQ's Wireless Presentation System wirelessly and securely connects devices to cameras, displays, and more. No software or dedicated networks required*. Simply press the button and start presenting.

*for button kit screen sharing

Intuitive

One Button to Screen Share

Cast up to 9 devices at the same time with easy to control shared screens and full HD video and image quality.

Maintenance and Software-free

Without the worry of OS compatibility or software, BenQ's Wireless Presentation System negates the need for expensive IT support and maintenance.

Portable Device Support

Supports pairing to a range of devices for diverse sharing capabilities.

Reliable

High-speed Connectivity

Built-in Qualcomm chipsets for high network bandwidth delivers uninterrupted sharing.

Proven Wi-Fi Standards

Wi-Fi 5 (802.11ac) standard network ensures speed and stability while sharing content.

Vivid Images with Smart Resolution

Intelligent EDID technology configures device resolution to match display automatically.

Secure

ISO27001 and ISO17025 certifications, AES 128-bit encryption, and WPA2 authentication provide data security so teams can focus on the task at hand.

Conference Camera

Smart Tools for Productive Meetings

BenQ's smart video conferencing cameras provide flexible connectivity so hybrid meetings run smoothly, no matter where team members are. No additional software needed, just start a meeting with superior image and sound quality.

VC01A Smart Video Bar

Start a meeting anywhere with the all-in-one video solution equipped with Android OS for easy connectivity and access to exclusive BenQ apps for productive and up-to-date software.

DVY32 Conference Camera

Include everyone in the meeting with powerful microphones and AI framing capabilities, in addition to compatibility with virtually any computer or display.

DVY31 Business Webcam

The on-the-go camera for working from home or the office delivers professional image and sound quality, whenever and wherever.

DVY23 Conference Camera

Complete coverage of almost any large conference room with high-precision focus and zoom capabilities to perfectly capture every moment in exceptional HD.

BenQ Software

Cutting-edge Connectivity

BenQ's exclusive suite of applications are easy to update and help manage devices, accounts, and data securely and remotely so team members can focus on the job, not the technology.

AMS: Easy Access

Easily manage accounts and cloud storage from devices connected to the Account Management System (AMS), whenever inspiration strikes.

X-Sign Broadcast: Stay Informed

Design up-to-date and adaptable content with X-Sign broadcast that can be managed remotely from different devices.

InstaShare 2: Effortless Wireless Presentation

Designed for seamless wireless presentations, InstaShare allows up to 9 users to cast screens simultaneously to collaborate from both PCs and mobile devices.

EZWrite 6: Inspire Collaboration

EZWrite 6 cloud whiteboard enables interactive meetings with hassle-free collaboration and shareable annotations.

OTA: Wireless Updates

Over-the-air (OTA) updates wirelessly upgrades software to optimise devices for smooth connectivity and a user-friendly interface for quick access.

BenQ's Partners

BenQ has partnered with leading manufacturers and cloud service providers to deliver exceptional display solutions with truly innovative design.

 AWS-certified services guarantee a reliable, high-quality, and secure experience.

 BenQ slot-in PCs are powered by Intel processors, transforming simple displays into smart IoT solutions.

 Experience the best IoT solutions with BenQ's Azure-certified devices and platforms.

 Zoom certified displays help deliver professional video conferencing with guaranteed compatibility.

 Access files and content with WPS Office's easy to use application software.

 McAfee help keeps data secure to support efficiency and connectivity.

 Extron enables the centralised management of BenQ devices, without having to switch system controllers.

 Connecting and controlling devices is simple with Crestron's secure system.

 Seamlessly integrate BenQ's Windows operated tech into the workplace with a familiar and trusted operating system.

 Manage devices remotely with easy-to-use TeamViewer software and support.
