

Colour Guide

The Power of Colour

Colour plays a powerful role in our everyday lives. Like a symphony, it tells us when to feel energised, helps build creative energy, and can bring a sense of calm.

We understand that colours are an invaluable tool allowing you to bring your carefully curated designs to life. Because of this, we work closely with the colour experts to ensure we provide you with the best colour options for your projects.

Find the colour inspiration that you seek in our beautifully curated Autex Acoustics® colour palettes.

Connection Through Colour

Introducing our new organic muted tones palette: Colosseum, Marina, Park, Petra, and Rushmore.

Inspired by nature, architecture, and enduring materials, these five curated colours expand our existing palette with warm, versatile tones designed for human-centred spaces.

Each colour is available across our wall and ceiling product range, all of which are carbon neutral and made with a minimum of 45% recycled PET.

Park

Inspired by One Central Park by Ateliers Jean Nouvel, Park is a grounded, nature-inspired green that introduces a sense of vitality, warmth and character to interior spaces.

How to Use

This background is colour matched to Park and is overlaid with complementary colours from our palette.

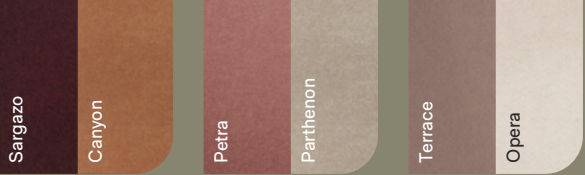

For visual impact, use a complementary colour combination

Celebrate Park's inherent nature and combine with similar verdant tones

Split complimentary

Pair with a warm neutral

Pair with a similar hue

Park works beautifully with Timber and Stone surface finishes

Colosseum

Colosseum is inspired by the enduring beauty of Rome's iconic amphitheatre, drawing on the tones of weathered travertine and concrete. This refined grey beige brings a grounded, architectural quality to interior spaces.

How to Use

This background is colour matched to Colosseum and is overlaid with complementary colours from our palette.

For visual impact, combine with a pop of warm earthy colour

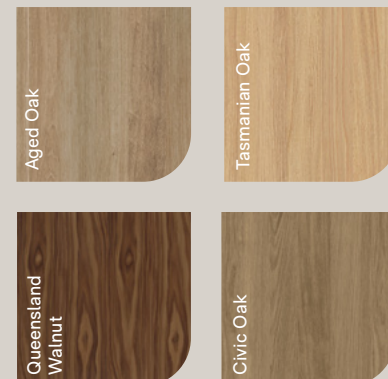

For a more measured impact, use analogous colour combinations and combine similar tones

Also, combine with a cool complimentary colour

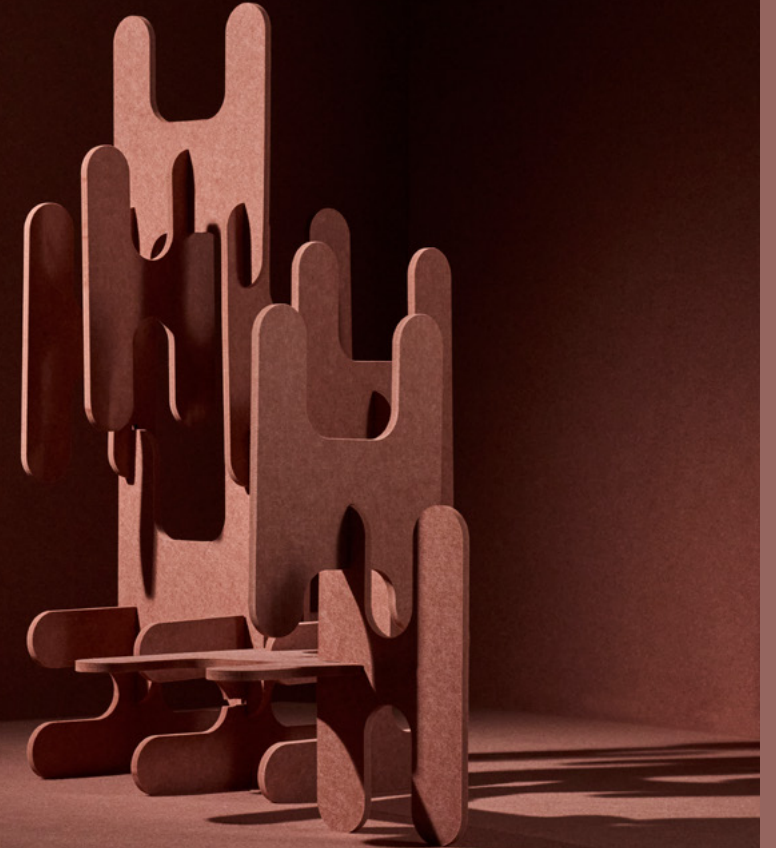

Colosseum works with Timber surface finishes

Petra

Inspired by the city of Petra, Jordan, Petra is a muted clay red that adds understated warmth, organic richness, and a welcoming sense of depth to any environment.

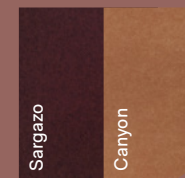

How to Use

This background is colour matched to Petra and is overlaid with complementary colours from our palette.

For visual impact, use a complementary colour combination

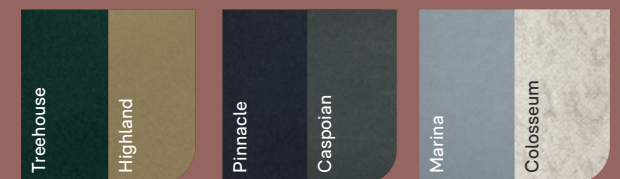

For a more measured impact, use analogous colour combinations and combine similar tones

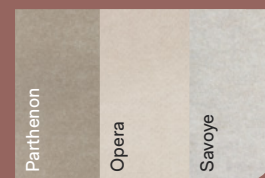

Soften with the inclusion of a warm neutral

Add drama back in with a contrasting colour

Petra works well with light neutrals

Try pairing Petra with Timber and Stone surface finishes

Marina

Inspired by the Marina Bay Sands Towers, Marina is a soft, airy blue that brings a sense of calm and openness, creating light-filled spaces that feel fresh, balanced, and inviting.

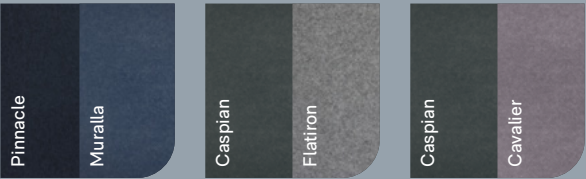

How to Use

This background is colour matched to Marina and is overlaid with complementary colours from our palette.

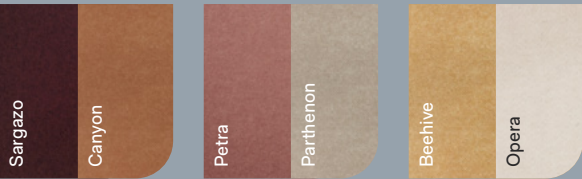

For visual impact, use a complementary colour combination

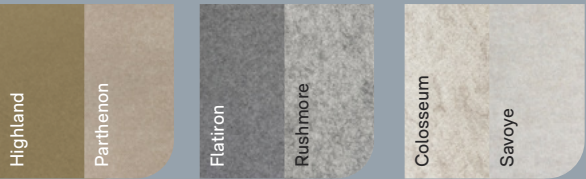

For a more measured impact, use analogous colour combinations and combine similar tones

Split complimentary

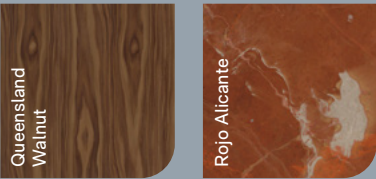

Pair with a neutral

Pair with a similar hue

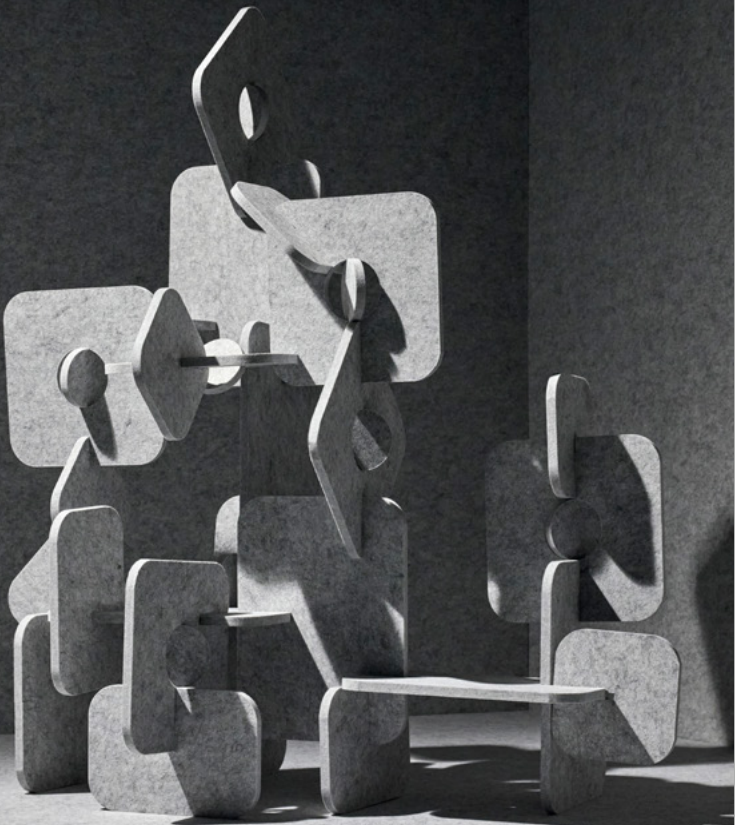

Marina works beautifully with Timber and Stone surface finishes

Rushmore

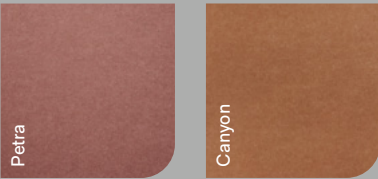

Rushmore is inspired by the grandeur of Mount Rushmore's granite cliffs, reflected in its cool, composed tone and subtle mottled texture. Clean and contemporary, it enhances natural light while helping spaces feel open and inviting.

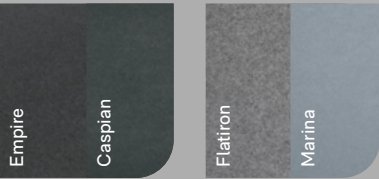

How to Use

This background is colour matched to Rushmore and is overlaid with complementary colours from our palette.

For visual impact, combine with a pop of colour

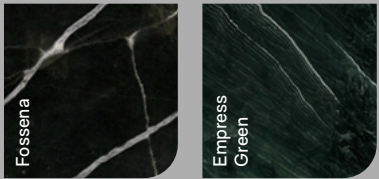

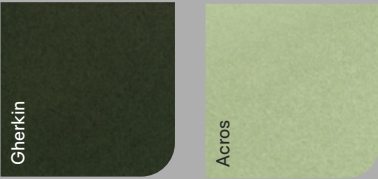

For a more measured impact, use analogous colour combinations and combine similar tones

Pair with a warm neutral

Rushmore works with dark Stone surface finishes

Cube™ Colours

Available in 27 colours, Cube™ is a lightweight, semi-rigid acoustic panel made from compressed polyester felt.

Cube is the base product used to create Horizon™, Vicinity™ Workstation Screens, Frontier™, Accent Ceiling Tiles, Grid Ceiling Tiles, Cascade™, Cove™, Lattice, Lanes™, Groove™, Groove Duet®, Mirage™, Verve™, and Groove™ Wall Tiles.

Opera

A subtle blend of neutral hues including the barest trace of pink adds hidden depths.

Parthenon

A natural earthy fawn with a hint of olive green, this mid grey beige is soft and welcoming.

Senado

Perpetually upbeat, this sunshiny hue is infused with a touch of orange ensuring it lands on the warmer side of bright yellow.

Beehive

A dynamic energised hue that lives happily between sunny yellow and tropical cantaloupe.

Canyon

A colour reminiscent of summer, this friendly orange hue will add a sense of space and light.

Petra

A muted clay red that adds understated warmth, organic richness, and a welcoming sense of depth to any environment.

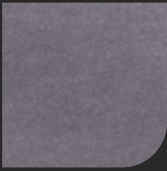

Sargazo

A saturated crimson red, with a deep berry stained hue has black base notes intensifying its dramatic energy.

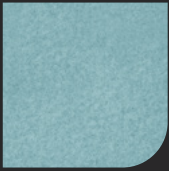

Terrace

Soft grey undertones ensure this shade is a sophisticated version of a traditional mauve.

Cavalier

Muted dusky grape with a hint of grey, this sophisticated shade of purple brings a quiet confidence that can be both soothing and stimulating.

Falling Water

Combine this buoyant light aqua with similar tones for an energetic environment, or paler companions for an easygoing atmosphere.

Marina

A soft, airy blue that brings a sense of calm and openness, creating light-filled spaces that feel fresh, balanced, and inviting.

Muralla

A true mid blue with an easygoing hue brings balance to your space.

Pinnacle

Ground your space and calm your mind with this saturated inky blue.

Caspian

An alluring alternative to charcoal, deep green base notes make this complex colour a chameleon capable of transforming a space.

Acros

A lively light green refreshed with a dash of acid yellow, Acros will rejuvenate a space and your mood.

Park

A grounded, nature-inspired green that introduces a sense of vitality, warmth and character to interior spaces.

Highland

This muted earthy tone mimics a warm neutral and will revitalise a space without overpowering it.

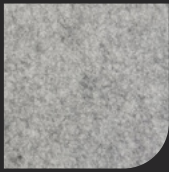

Gherkin

Restorative and grounded, this soft earthy green offers a balanced presence in a space.

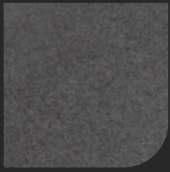

Tree House

An elegant deep emerald with black undertones, this saturated dark green creates an intimate sanctuary.

Rushmore

A soft, light grey with a subtle mottled texture.

Herald

A marled finish adds a dynamic edge and a ouch of warmth to this classic true grey.

Flatiron

Cool and composed with a subtly marbled surface, this perfect mid grey gives a sense of depth.

Empire

This flinty charcoal grey with a subtly variegated appearance is a softer alternative to pure black.

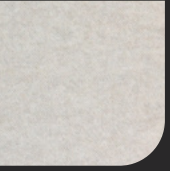

Petronas

A classic jet black, this saturated tone will add depth and definition to a space, creating a contemporary backdrop.

Pavilion

Keeping it simple and sophisticated with pure white will lighten a room, and the other colours within it.

Savoye

Warm grey undertones make this a versatile tone that is at home with both warm and cool colour palettes.

Colosseum

A soft, heathered texture brings subtle depth and a gentle warmth to this understated light beige.

Vertiface® Colours

Available in 44 colours, Vertiface® is a durable and versatile fabric wallcovering made from 100% polyester fibre.

Vertiface is the base product used to create Composition®, 3D Tiles, Groove Duet®, and Vertiface overlaid Quietspace® Panels.

Beehive

A dynamic energised hue that lives happily between sunny yellow and tropical cantaloupe.

Senado

Perpetually upbeat, this sunshiny hue is infused with a touch of orange ensuring it lands on the warmer side of bright yellow.

Simba

The barest hint of brown ensures this vibrant spicy orange sits on just the right side of intensity.

Canyon

A colour reminiscent of summer, this friendly orange hue will add a sense of space and light.

Savoye

Warm grey undertones make this a versatile tone that is at home with both warm and cool colour palettes.

Opera

A subtle blend of neutral hues including the barest trace of pink adds hidden depths.

Colosseum

A soft, heathered texture brings subtle depth and a gentle warmth to this understated light beige.

Parthenon

A natural earthy fawn with a hint of olive green, this mid grey beige is soft and welcoming.

Sargazo

A saturated crimson red, with a deep berry stained hue has black base notes intensifying its dramatic energy.

Terrace

Soft grey undertones ensure this shade is a sophisticated version of a traditional mauve.

Cavalier

Muted dusky grape with a hint of grey, this sophisticated shade of purple brings a quiet confidence that can be both soothing and stimulating.

Calypso

An intriguing pastel version of ultraviolet oscillating between blue and purple creates a contemplative atmosphere.

Myst

This elegant pale grey brings a little more to the table than white, settling a space with its quiet character.

Marina

A soft, airy blue that brings a sense of calm and openness, creating light-filled spaces that feel fresh, balanced, and inviting.

Porcelain

Subtle blue undertones ensure this hazy hue is a soft cool grey that will reflect the light and create a sense of space.

Stonewash

A laid back blend of blue and white, this relaxed hue embodies classic stonewash denim—cool and a little bit quirky.

Atlantis

A transportive deep sea blue, this subtly variegated fibre evokes the enigmatic Atlantic ocean.

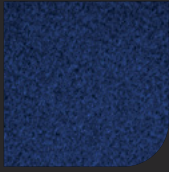

Electric Blue

Eternally optimistic, a brilliant bright blue that will light up your day.

Muralla

A true mid blue with an easygoing hue brings balance to your space.

Ink

With violet undertones, this sapphire blue is a deep sophisticated version of a classic royal blue.

Pinnacle

Ground your space and calm your mind with this saturated inky blue.

Falling Water

Combine this buoyant light aqua with similar tones for an energetic environment, or paler companions for an easygoing atmosphere.

Spearmint

A soothing dusky blue green, Spearmint is an obliging hue that will shift to suit the colours it mingles with.

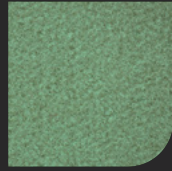

Octane

An alliance between blue and green, with warm undertones to ground your space and calm your mind.

Acros

A lively light green refreshed with a dash of acid yellow, Acros will rejuvenate a space and your mood.

Jade

An elegant muted mid green infused with a hint of yellow, brings tranquillity to your environment.

Granny Smith

Supremely confident in its inherent greenness, this effervescent hue is the ultimate bright green.

Lime

Fresh and citrusy, this good natured green will simultaneously refresh your space and soothe your senses.

Park

A grounded, nature-inspired green that introduces a sense of vitality, warmth and character to interior spaces.

Highland

This muted earthy tone mimics a warm neutral and will revitalise a space without overpowering it.

Gherkin

Restorative and grounded, this soft earthy green offers a balanced presence in a space.

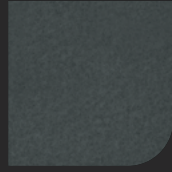

Tree House

An elegant deep emerald with black undertones, this saturated dark green creates an intimate sanctuary.

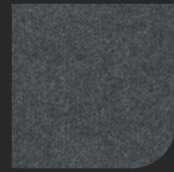

Sage

Like whipped up sea on a blustery day, this moody hue will shift from green to grey depending on the light.

Caspian

An alluring alternative to charcoal, deep green base notes make this complex colour a chameleon capable of transforming a space.

Koala

The perfect medium grey infused with warmth to soften its smoky coat, creates a welcoming grey tone to unify your space.

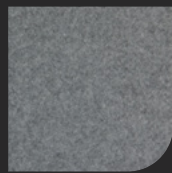

Empire

This flinty charcoal grey with a subtly variegated appearance is a softer alternative to pure black.

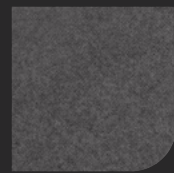

Rushmore

A soft, light grey with a subtle mottled texture.

Flatiron

Cool and composed with a subtly marbled surface, this perfect mid grey gives a sense of depth.

Herald

A marled finish adds a dynamic edge and a touch of warmth to this classic true grey.

Petronas

A classic jet black, this saturated tone will add depth and definition to a space, creating a contemporary backdrop.

Colours

Our range of acoustic wallcoverings have long been favourites within the education, commercial, and hospitality industries to help reduce reverberation, and create more productive environments.

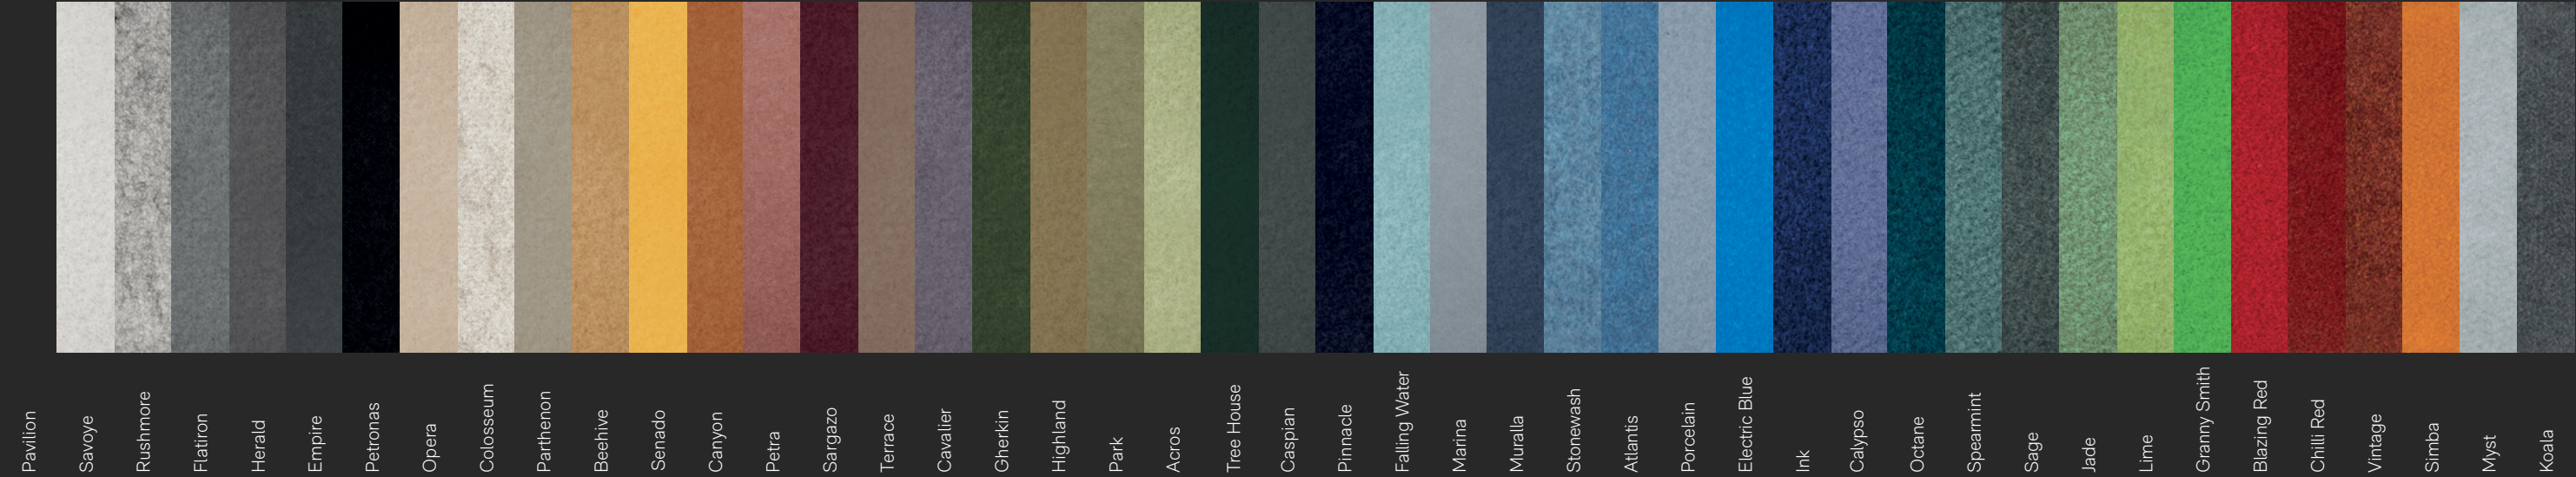

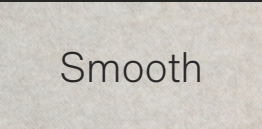

To ensure you have the most relevant colours for your projects, we are refining our colour ranges. Selected colours are now available across multiple ranges.

Cube™

27 colours available for Cube™, Horizon™, Vicinity™ Workstation Screens, Frontier™, Accent Ceiling Tiles, Grid Ceiling Tiles, Cascade™, Cove™, Lattice, Lanes™, Groove™, Groove Duet®, Mirage™, Verve™, and Groove™ Wall Tiles.

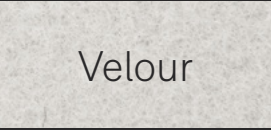

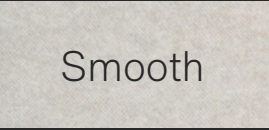

One finish available:

Vertiface®

44 colours available for Vertiface®, Composition®, 3D Tiles, Groove Duet®, and Vertiface overlaid Quietspace® Panels.

Two finishes available:

Custom Colour

As creators and innovators, we understand your pursuit of the bold and unusual, the rare and exceptional—the brave, colour-outside-the-lines ideas. Every space you design is unique, therefore, every element—from floor to ceiling—should be tailored to fit.

Customise your acoustic solution with our Surface Finishes and bring your interiors to life with high-res graphics, murals, and photography printed directly onto the acoustic panels.

Easy to colour match, we can print to your selected CMYK or Pantone palette to match or compliment painted walls in your building and ensure colour continuity throughout your design.

With endless colour, pattern, texture, and graphic possibilities, Surface Finishes gives new meaning to the word custom.

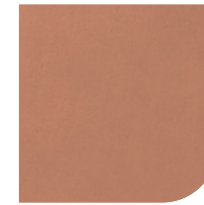

Colour Suggestions

Find inspiration for your bespoke pattern or solid-colour print with our colour suggestions. Select colours to match or compliment your colour palette with paint, CMYK, and Pantone matching available.

We Are Proud to Be a Carbon Neutral Organisation

We have reduced and balanced all carbon emissions from our business operations, including manufacturing to zero.

We Offer Entirely Carbon Neutral Products

All our products are carbon neutral with emissions offset through certified carbon credits.

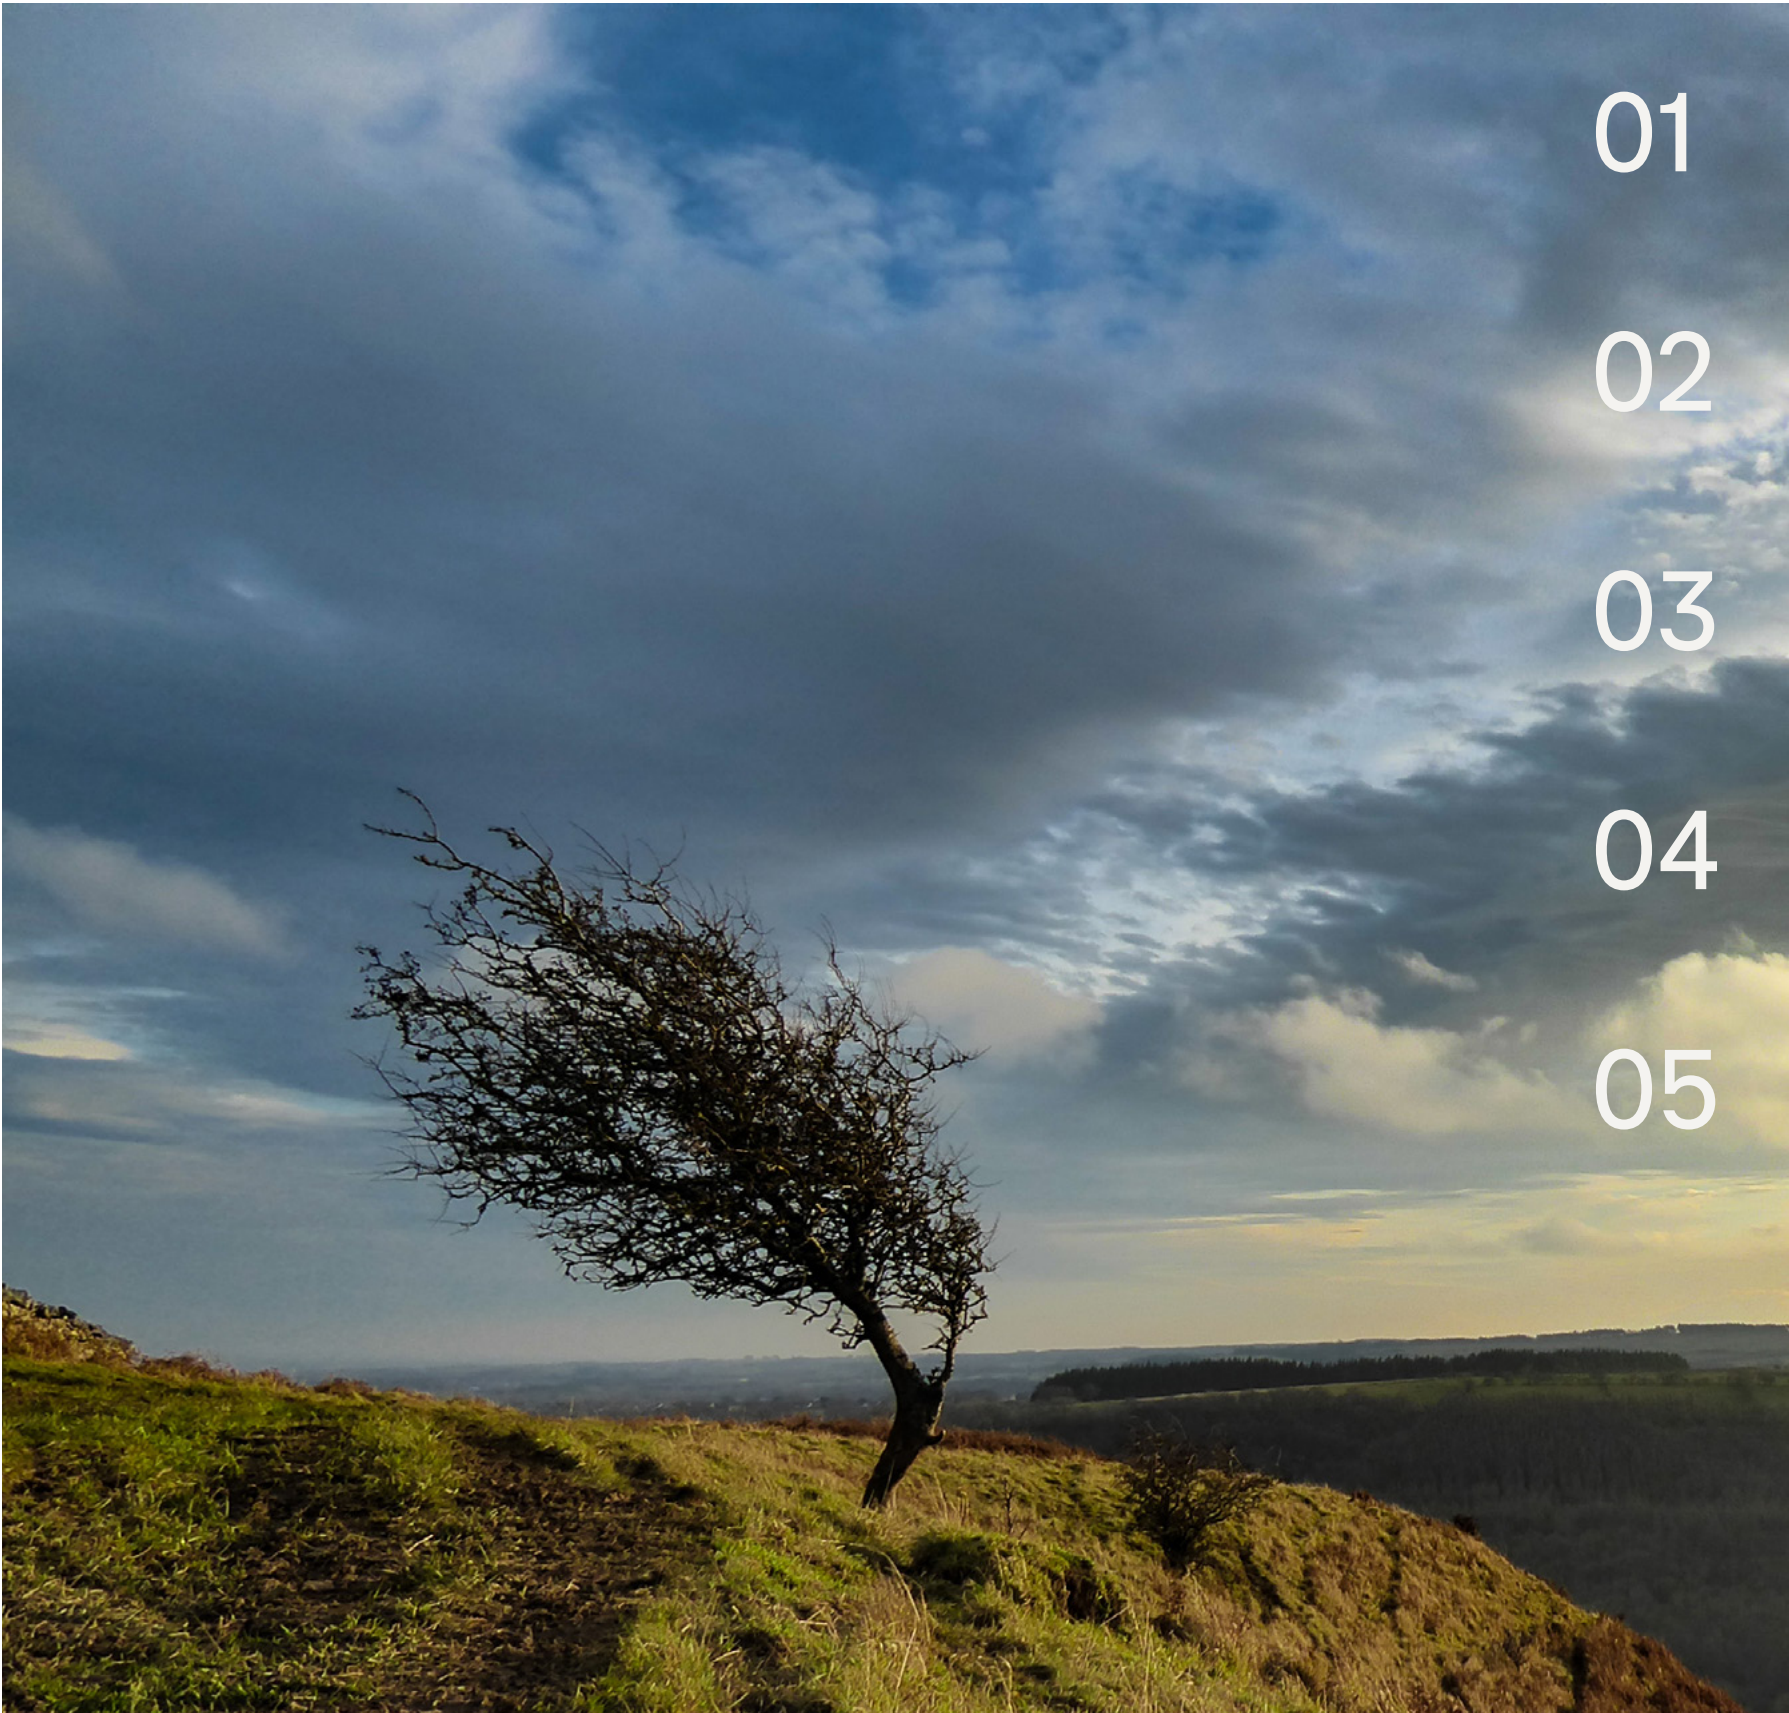

0_{kg}

CO₂-e per kg of product

Sustainability Pillars

The five pillars of our sustainability strategy define all aspects of our operations and the products we offer.

01

Climate Change Demands Climate Action We are carbon neutral in everything we do.

02

Closing the Loop We are advocates for closing the loop on waste. We design with circularity front of mind.

03

Sustainable Supply Chain We carefully select responsible suppliers and take action to mitigate unethical practices, and encourage good working conditions.

04

Supporting Wellbeing in Buildings All our products are made using only safe materials. No harmful chemicals are present in our products.

05

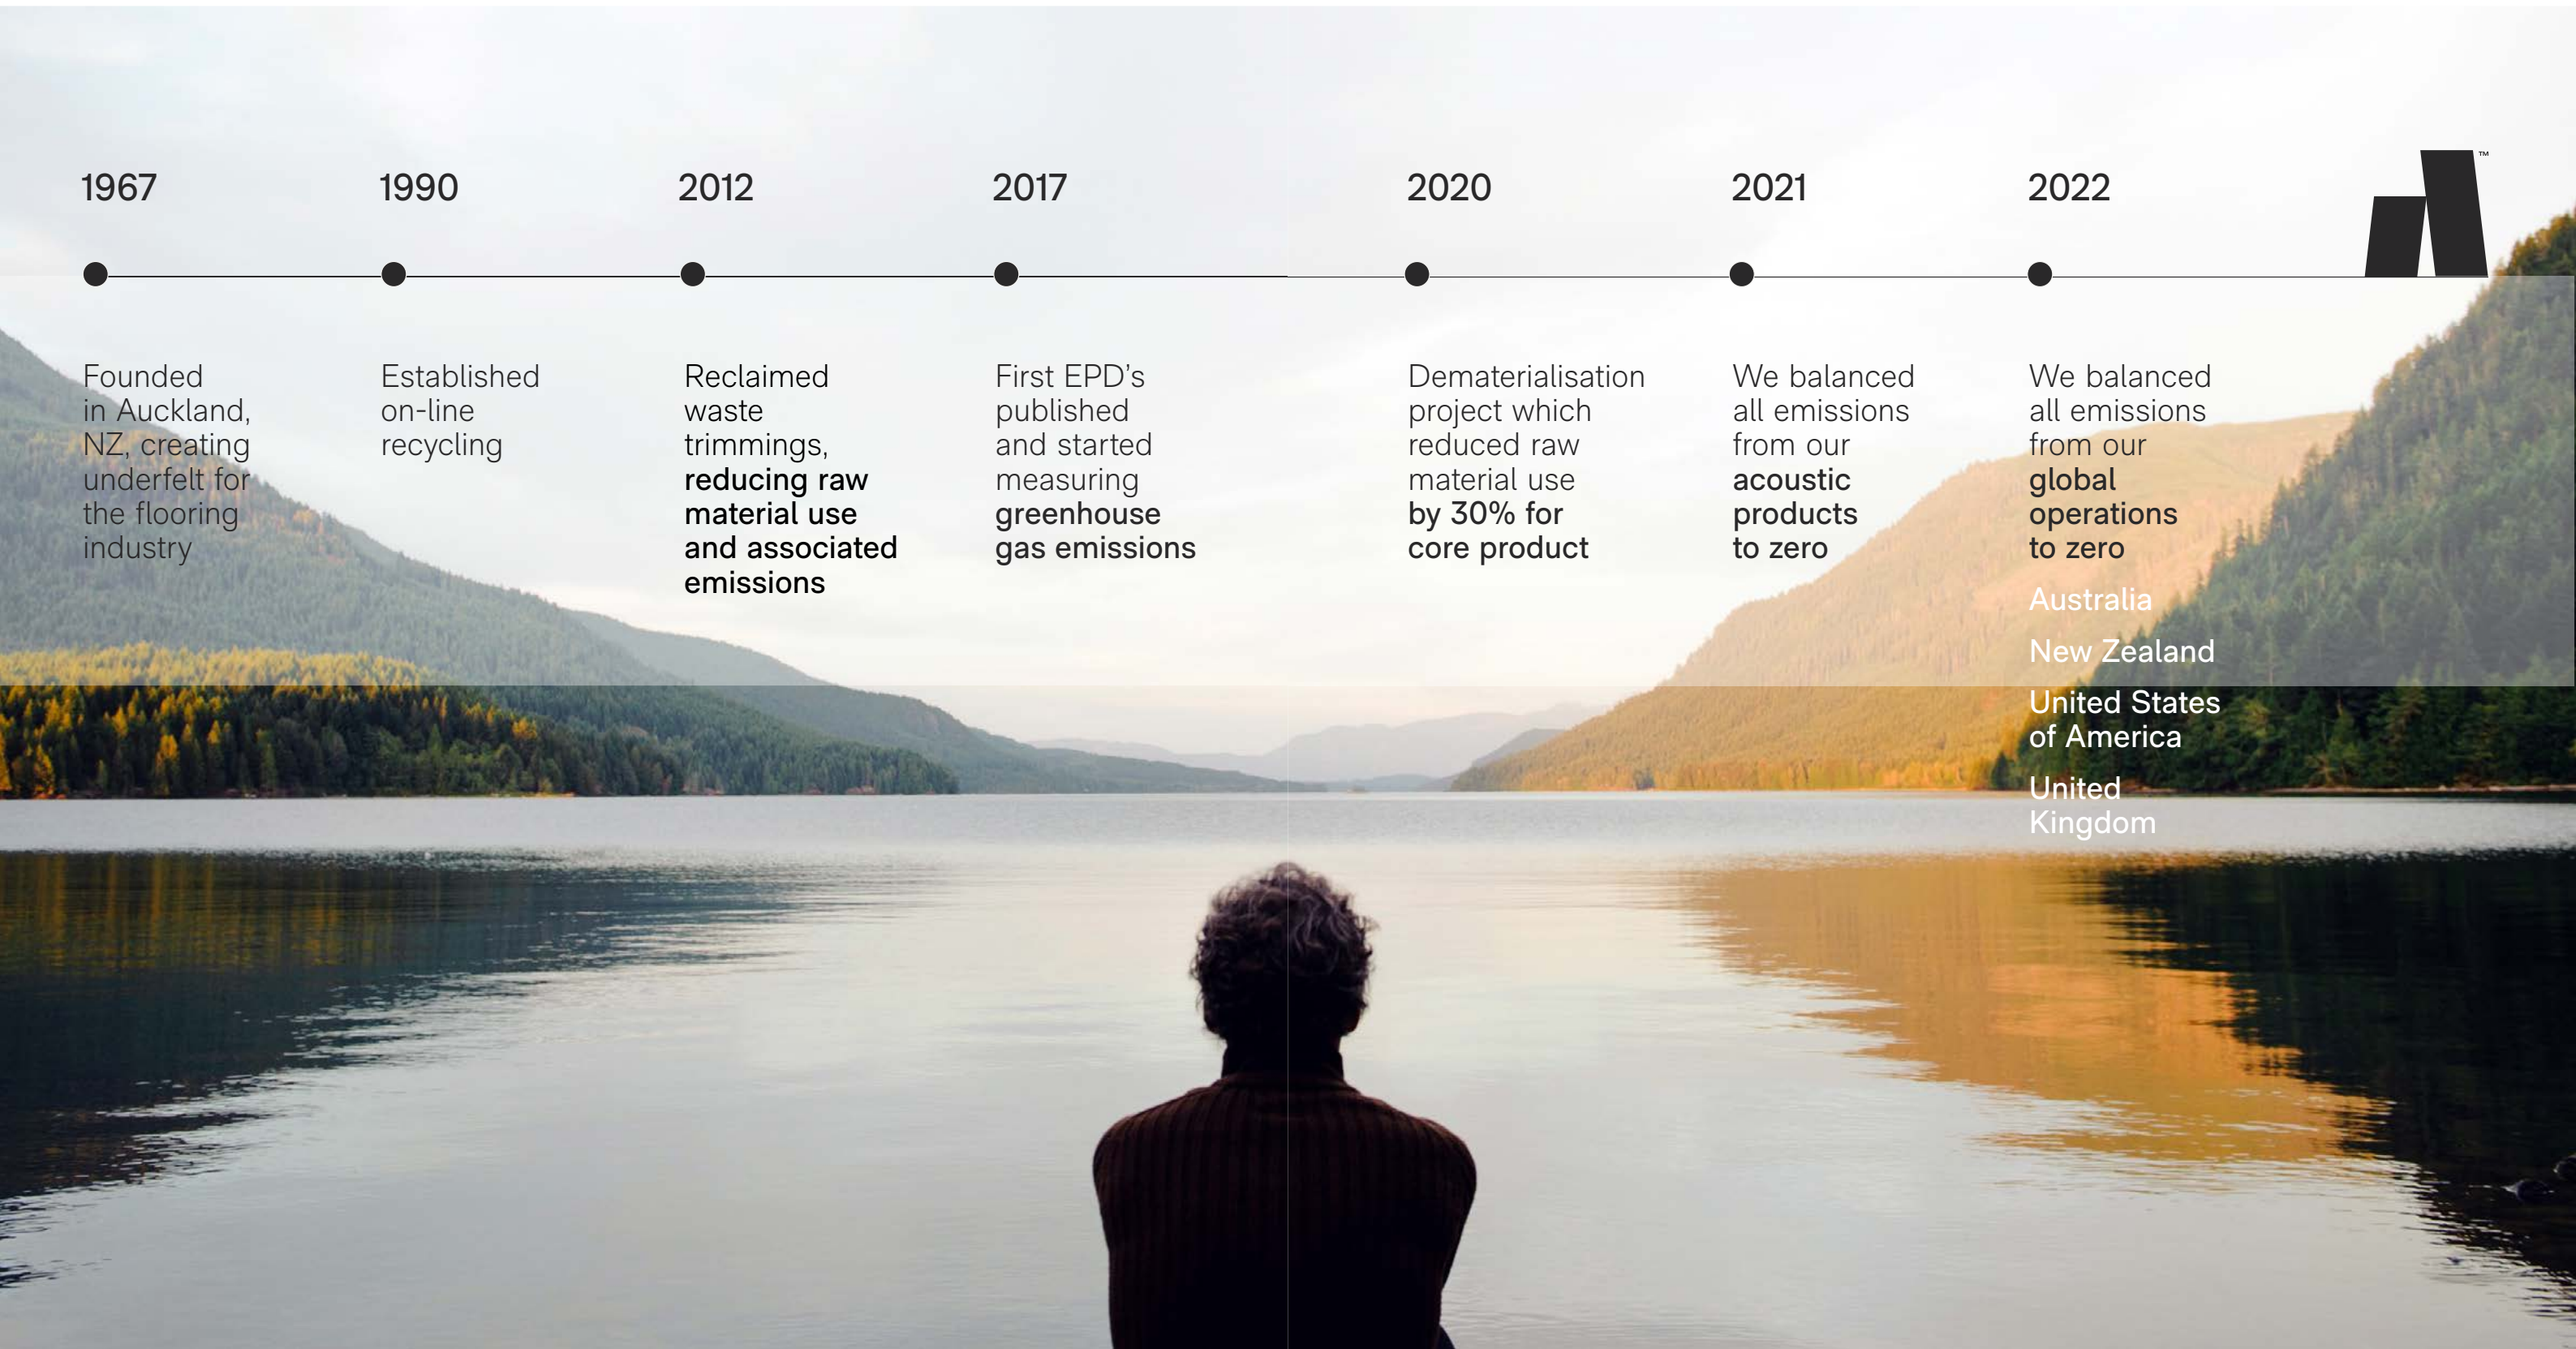

Operating a Business for Purpose and Profit We strive to have a positive impact on our environment, our people, and the next generation.

In everything we do

Our Journey to Carbon Neutrality

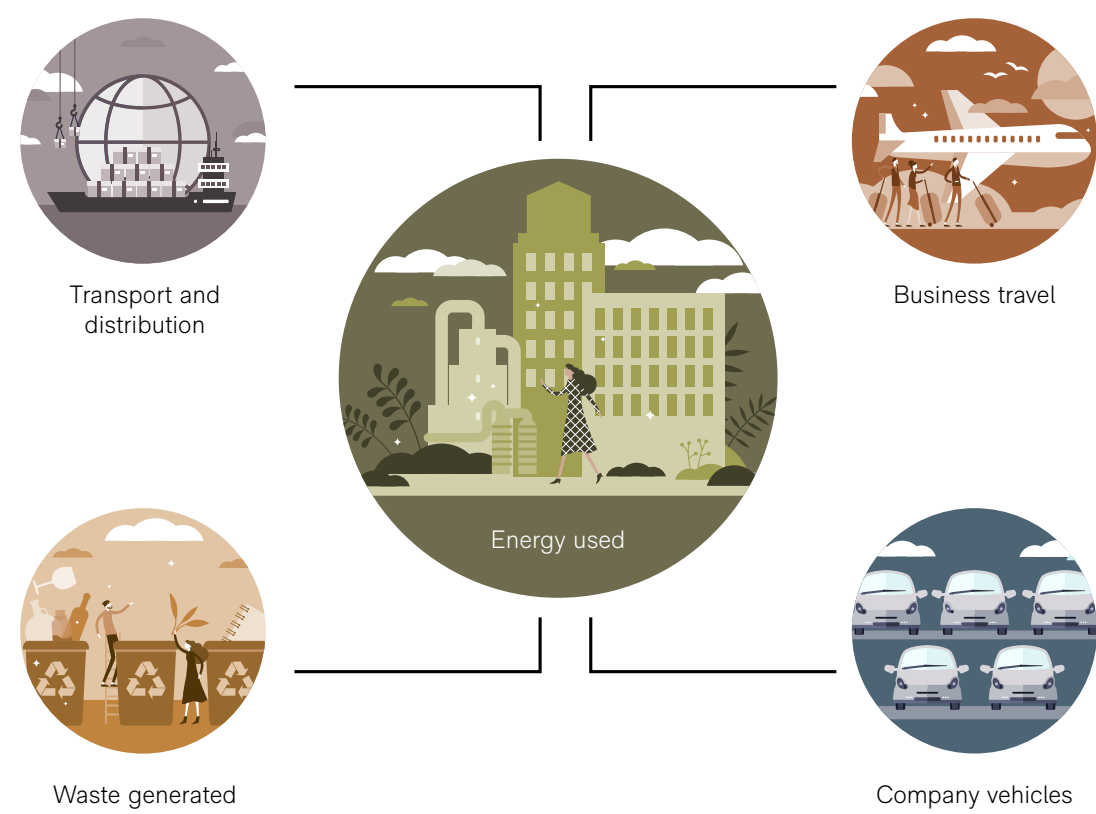

How We're Fighting Climate Change

The climate crisis is the biggest issue of our generation. As a product designer and manufacturer, we have an opportunity to help improve the carbon impact of our industry.

Our Operational Carbon Emissions

We are a carbon neutral business. We actively monitor the carbon emissions of our entire operation to better understand our carbon footprint and how we can further reduce emissions. We have an internal strategy to reduce our carbon emissions and have successfully delivered a number of carbon reduction initiatives within our operations. Any carbon emissions that are currently unavoidable are offset through certified carbon credits. We have a commitment to purchase only verified carbon credits that are retired on robust registers to ensure we are driving positive change.

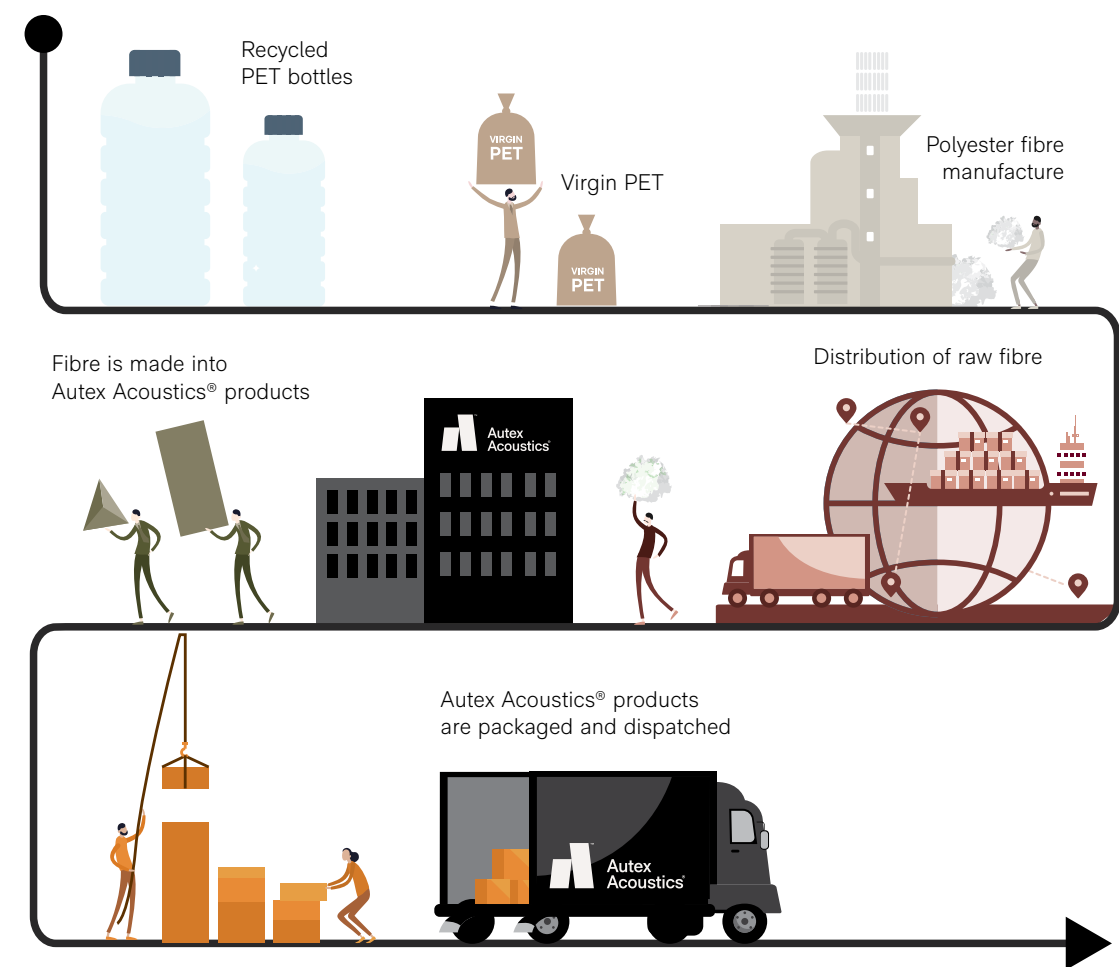

Key Business Activities Contributing to our Operational Emissions

Embodied Carbon of Our Products

Our products are carbon neutral, and we are the first business in our industry to include the cost of carbon in our products. We consider this an investment in present and future generations, and simply a cost of doing business. We calculate the embodied carbon of our products, from the raw material to the manufacturing gate, using industry recognised ISO standards. We have reduced the carbon footprint of our products through smart design and efficient manufacturing. While the embodied carbon of our products is low, they still do have a carbon impact. We mitigate this through our Carbon Neutral Product Initiative by offsetting the equivalent emissions using certified carbon credits. These carbon credits are generated from projects focused on renewable energy, fuel switching, and reforestation around the world.

Key Activities Contributing to the Embodied Carbon of Our Products

Credentials

Certifying your Green Building

Autex Acoustics products meet criteria for WELL, LEED, Green Star, and BREEAM building rating systems, helping you achieve certification for your project. For support and guidance on available rating system points, please visit autexglobal.com, or speak with your Autex Acoustics account manager.

Environmental Product Declaration

An Environmental Product Declaration (EPD) is a document that communicates information about the life-cycle environmental impact of a product, including embodied carbon. Our EPDs are created and verified in accordance with ISO 14025 and EN 15804, used for construction products and services.

GreenRate – Level A

GreenRate is a multi-attribute environmental certification that scores products on a range of environmental, health, and social measures. Autex Acoustics products are certified to achieve GreenRate Level A. Level A is the highest GreenRate level and demonstrates the highest level of product sustainability.

Declare – International Living Future Institute

The ingredients in our products have been reviewed against the Living Future Challenge Red List and achieve a Third-Party Verified 'Red List Free' status.

Products achieve the highest 'LBC Red List Free' status when:

- Ingredients are 100% disclosed and are not found in the Red List
- Products are shown to meet VOC emissions limits

We assure the accuracy of our certifications by having our Declare labels independently verified by a third party expert.

Health Product Declaration

A Health Product Declaration (HPD) is a document that reports the ingredients of a product and the health effects associated with these ingredients. A Health Product Declaration has been generated for each of our products.

SCS Global Services - Indoor Advantage Gold

SCS Indoor Advantage Gold is a rigorous third-party indoor air quality certification created by SCS Global Services that verifies low volatile organic compound (VOC) emissions for furniture and interior building materials.

ISO Certifications

ISO 14001 – Environmental Management

Autex Acoustics manufactures under environmental management processes that are ISO certified. This certification gives assurance that we manage any environmental impacts within our operations.

ISO 9001 – Quality Management

Autex Acoustics has a strict quality management system that is ISO certified. Robust quality processes from raw material through to product release help ensure our products meet expectations.

ISO 45001 – Health and Safety Management

Autex Acoustics manufacturing operations have an ISO 45001 certified Health and Safety Management System to ensure the safety and wellbeing of our people.
